COMPANY PROFILE

LESSO wooden door, as one of the core business sectors of China lesso group holdings limited, is operated by Guangdong Lesso Rili Wood industry Co., ltd, whose registered capital reaches 50 million yuan. Located in Fogang, Qingyuan, Guangdong,our company has an over 10 years experiences of manufacturing, which can trace back to Rili(Fogang) Wooden Door in 2004.

At present, the production base of Lesso wooden door covers an area of 86 thousand square meters. And the advanced production equipments allow us to offer the customized wooden doors for lage-scaleunits and developers quickly and provide installation and delivery services in time, which includes all set UV coating line from Italy, ten large-scale drying ovens for timbers(drying 300 cubic metres for each time), sanders, cool pressing machines, double cutting, automatic line sprayer, large board-jointing machines and central dust-ventilation system.

CHINA LESSO GROUP

China Lesso Group Holdings Limited (Stock Name: China Lesso, Stock Code: 02128.HK) is a large industrial group of home furnishings and building materials in China. China Lesso's product portfolio spans piping, sanitary ware, integral kitchen,integral doors and windows, decorative plates, water purifiers, fire-fighting equipment,valves, hygiene materials, oceanic aquaculture cages, products for environmental protection, home furnishings and building materials, channels and services, and more. Its sales revenue has reached RMB 23.734 billion in 2018.

With the rapid development of internationalization and globalization, China Lesso boasts more than 80 holding subsidiaries and more than 23 production bases distributed in 17 provinces across China,and in US, Canada, India, Indonesia and Uganda. China Lesso remains committed to improving its strategic layout, broadening its sales network and expanding the market. This is how it provides products and services for customers in a timely and efficient way.

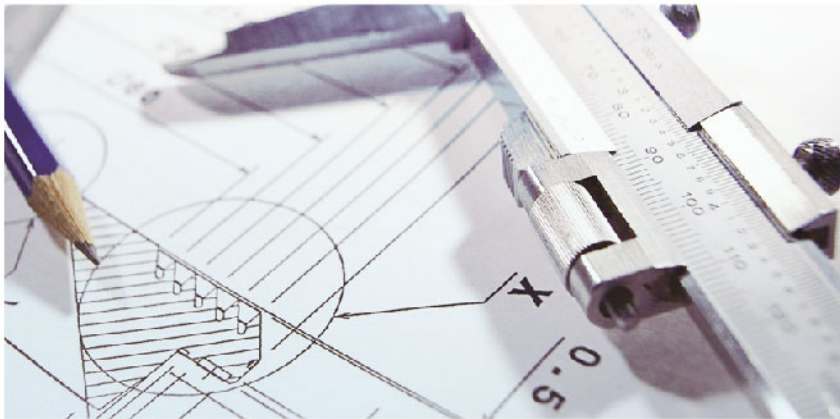

GOOD QUALITY

With over 10 years' experiences of production, installation and management, LESSO runs wooden door business with large-scale and modern production equipment, strict assemble technique and quality inspection process.

LESSO wooden door pursues detailed process and excellent quality, endowing the product with high-end quality and elegant appearance and satisfying the needs of modern life.

True to the brand ideas of creating a relaxing life, we aim to provide customers with high cost-effective products.

EASY INSTALLATION

Installation is a key factor of performance for wooden doors. Knowing its profound importance, LESSO establishes a dedicated installation team and provides professional guidance for all our client, making sure the product quality and service ability to the customers' needs.

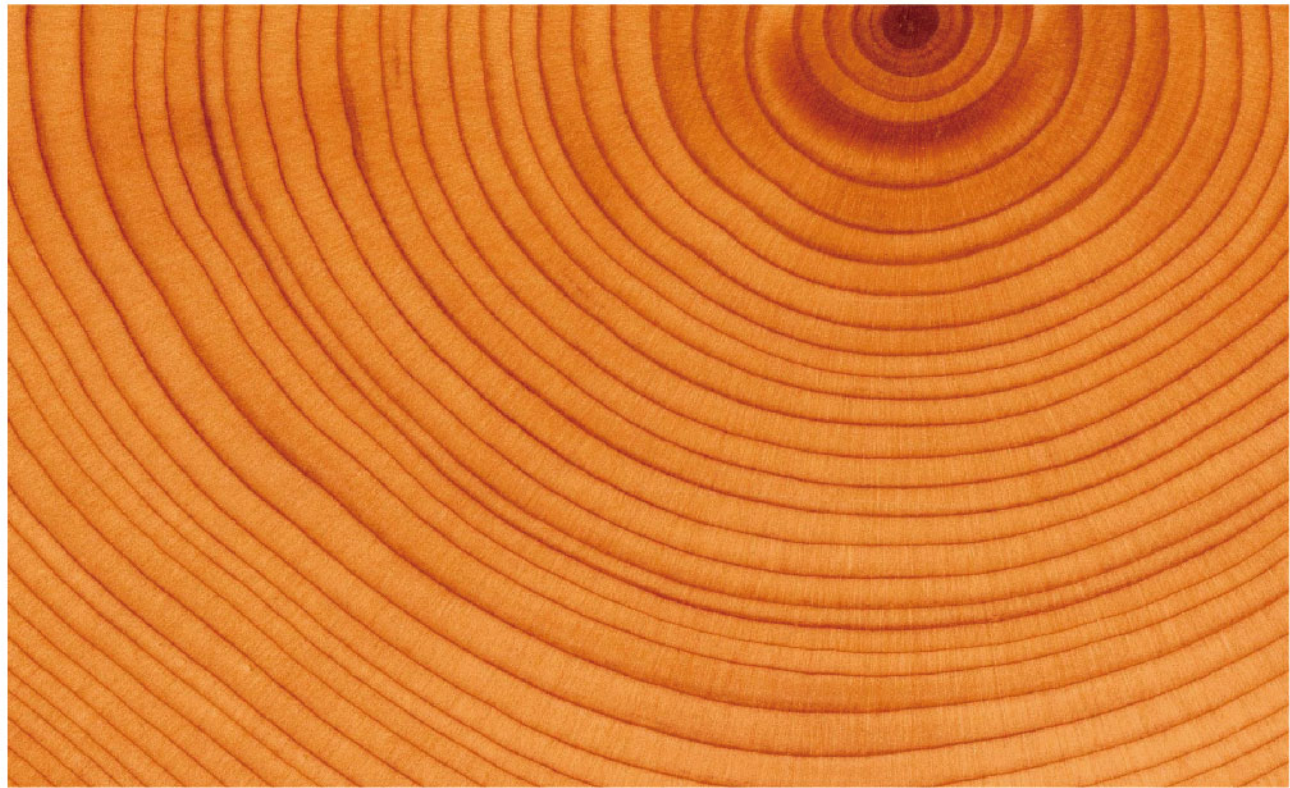

SEVEN ADVANTAGES
GUARANTEE THE QUALITY

01

Imported Original Wood with Outstanding Quality

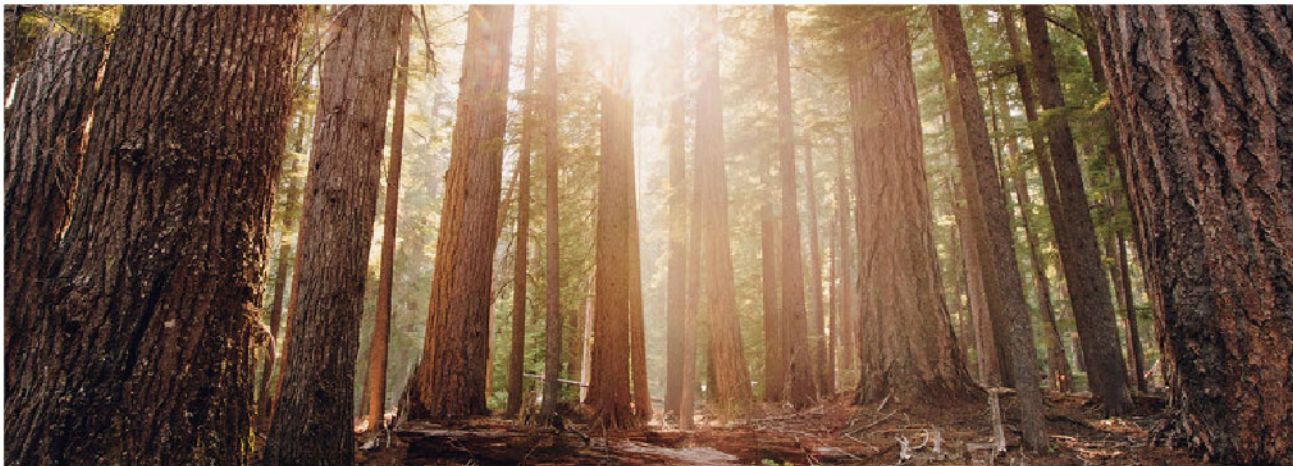

The imported SPF (short for spruce, pine, fir) wood from Canada forest embraces smooth texture, high strength-to-weight ratio and good performance. Under the advanced cold pressing technique, the thickening door panel will guarantee use lifetime and prevent deformation, edge warping and cracking.

02

E1 Level Standard

LESSO wooden door has a strict limitation on formaldehyde content, including timber material and paintings, conforming the E1 level. Make sure your family will not get harm from formaldehyde.

03

Anti-Deformation, Durable Lifetime

After using for a long time, most of the wooden door will easily get deformation and warping. LESSO wooden door has got through such problems by three core technical process.

Thicker Door Panel

38+15mm thickness
Good performance in anti-warping

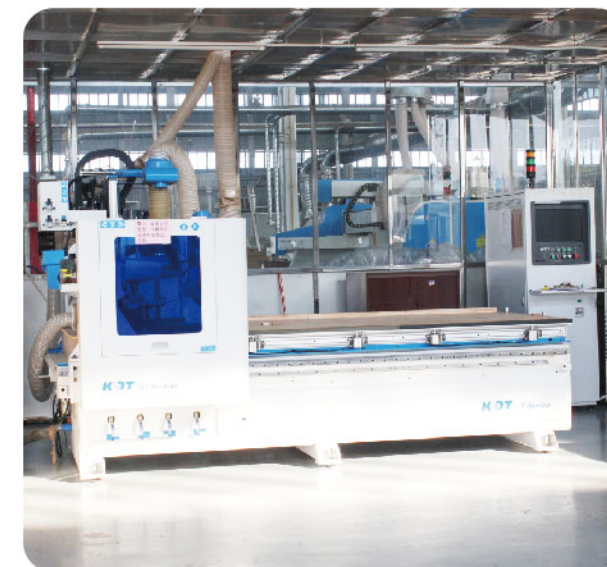

Cool Pressing Door Panel

Cool pressing technique
Automatic feeding and cold pressing process effective prevents the deformation.

Special Assembling Technology for Anti-Deformation

Adding some special material to reinforce the door page, doorpanel and door core for high-end quality and long-time using.

Advanced Equipment
for Quality Assurance

04

Advanced Equipment for Quality Assurance

To improve the production efficiency and assure the quality, we use full set advanced production equipment like the closed dust-free UV roller coating line from Italy, making sure the surface treatment for door panel smooth and color symmetrical.

With the timber material drying machine and automatic temperature control, the moisture content can be reached the most suitable percentage.

05

Quiet Locks for More Comforts

304 stainless steel extends the service life of the door locks. Thereof, mute lock effectively reduces noises and helps improve the sleep in the night. And the guide rail of high quality makes push and pull smoothly and stays out of the any harm after using over ten thousand times.

06

Certifications Give Reassurance

Relying on the powerful engineering resources of China LESSO, our wooden door has cooperated with many real estate developers and engineering companies, and won good reputation and praise. LESSO wooden door, inheriting the quality core of China LESSO, is committed to providing more cost-effective products, excellent installation and service for global residents.

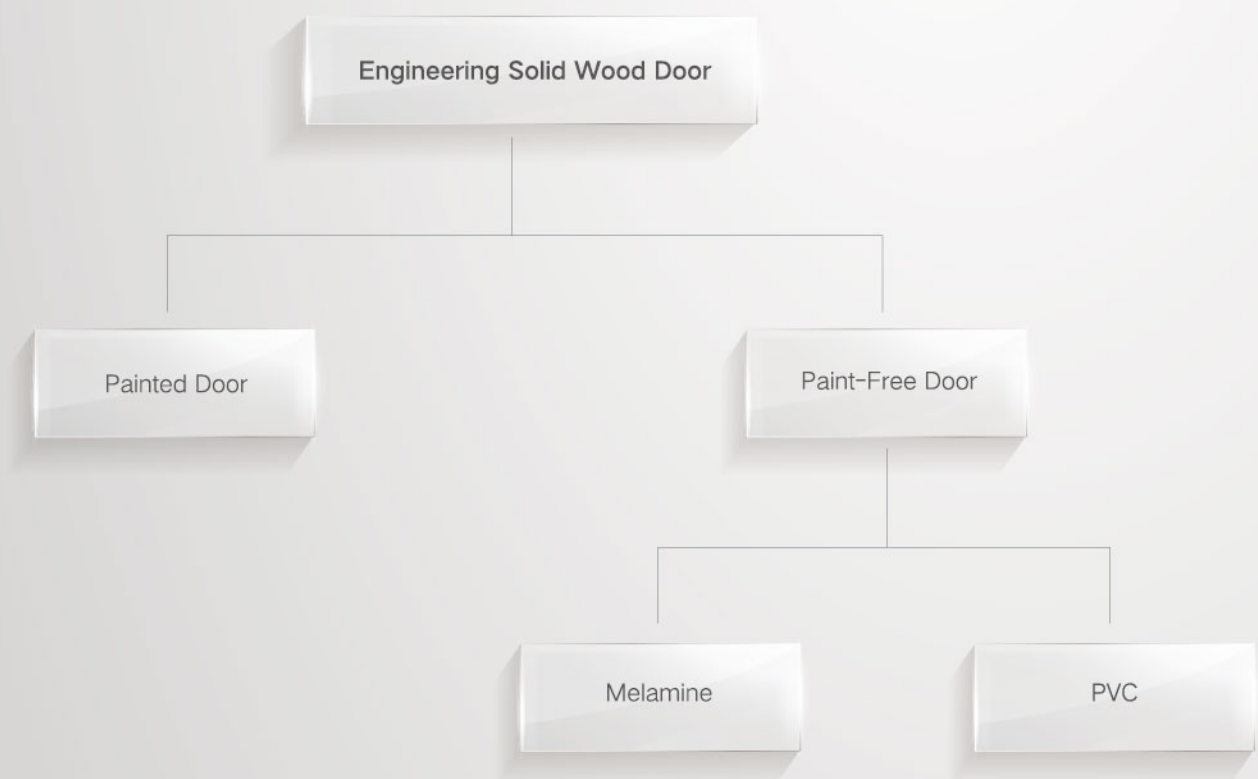

07

Rich Patterns, Fashion Design

LESSO wooden door embraces rich and various surface texture and color, providing more choices for developers and consumers, satisfying the needs of different clients, and catering to numerous decoration style.
